PROFESSIONAL SUMMARY

Highly motivated B.Tech CSE student with strong foundations in software development, electronics, and problem-solving. Seeking opportunities to apply and expand technical skills through hands-on experience, real-world projects, and internships.

EDUCATION

- **B.Tech in Computer Science and Engineering**
  Dr. Shakuntala Misra National Rehabilitation University | Expected 2027
- **Diploma in Electronic Engineering**
  Government Polytechnic Barabanki | Completed (3 Years)

TECHNICAL SKILLS

- **Languages & Web:** Python, Java (Basics), C++, HTML & CSS, JavaScript
- **Database & Tools:** SQL, MongoDB, Git & GitHub
- **Core Concepts:** DSA, OOP, Networking Basics
- **Soft Skills:** Problem Solving, Team Collaboration, Debugging

CERTIFICATIONS & ACHIEVEMENTS

- **Certificate of Participation, CONASH AI SUMMIT 2026:** Presented a research paper based on the full-stack "BookMyDoctor" project.
- **Training Certificate:** Remote Sensing and GIS.

EXPERIENCE

- **Data Annotator Intern | Roadvision AI**
  - Completed data annotation tasks to support the development and training of artificial intelligence models.
  - Ensured high accuracy and quality of data labeling during the 3-month internship program.
- **Intern | BSNL**
  - Gained exposure to telecommunications fundamentals, understood networking workflows, and observed system operations. (Duration: 1 Month)

PROJECTS

- **BookMyDoctor Web Application**
  - Developed a web-based platform for booking doctor appointments online, designing a responsive user interface using HTML, CSS, and JavaScript.
  - Implemented backend database connectivity using MongoDB to manage patient records.
- **RFID Attendance Monitoring System**
  - Developed a real-time attendance tracking system using RFID tags.
  - Automated entry logging and data storage for improved accuracy.
  - Enhanced security and reduced manual workload using a microcontroller-based design.

LANGUAGES

Hindi (Fluent), English (Fluent)
